## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-20 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 1, "generating a first signal that represents the first and second appearances in case of the summation of a first appearing time duration, a second appearing time duration and a time span between the two appearing time durations being smaller than a first reference time". In claims 8 and 16, "the gesture unit also computes the summation of the first appearing time duration, the second appearing time duration and the time span between the two appearing time durations and compares this result with the first reference time; and if the sum is smaller than the first reference time value, then produce the first signal that presents the first and second appearance". The closest prior art of record, singularly or in combination, fails to anticipate or render the above underlined limitations obvious..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
